Summary of reasons for decision:

The computer moving image file promotes and supports the use of urine in association with sexual conduct and is therefore deemed to be objectionable under s3(2)(d) of the Films, Videos, and Publications Classification Act 1993.

The moving image file contains a short clip that depicts urination in a sexual context as a pleasurable activity. The material has no other purpose than the sexual titillation and arousal of viewers. The presentation of the activity in this manner encourages and legitimates the use of urine in association with sexual conduct.

The classification of this publication interferes with the freedom of expression as set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention that publications which fall under the criteria of s3(2) of the Films, Videos, and Publications Classification Act 1993 will be deemed objectionable.
